VISION

Corporate Mission Statement

We will aim to become a machinery manufacturer
that continues to provide excellent products and services to the world.
With integrity being a key principle in the Group, we will contribute towards
society by gaining high respect and confidence from all stakeholders.

OUR VALUES

Customer First

We exceed customer expectations by providing sophisticated efficient products and services, giving the utmost consideration to their needs and requirements.

Embrace Changes

We will continue to drive and embrace changes without accepting the status quo.

Commitment to Technology and Innovation

We are passionate about contributing to society by further developing our unique, in-house technologies.

Respect People

We will nurture an organizational climate that fosters mutual respect, tolerance and learning for growth.

NIIHAMA WORKS

Traditional technologies of yesterday combined with cutting edge technologies for tomorrow

Located in Niihama City on Shikoku Island, facing the Seto Inland Sea. Has international berth for shipping fully erected cranes and equipment.

Niihama Works, our crane manufacturing base, has been in continuous operation since 1888, making full use of techniques developed through the years.
Our manufacturing skills and state-of-the-art technology come together to produce the finest products with the highest quality.
Now, with our nearly 120 years of experience, our Niihama Works has become the only dedicated crane factory in Japan.
