

**SUMITOMO**

IS THE

**LEADING PIONEER  
FOR LI-ION  
BATTERY TYPE  
RTG HYBRID  
TECHNOLOGY**

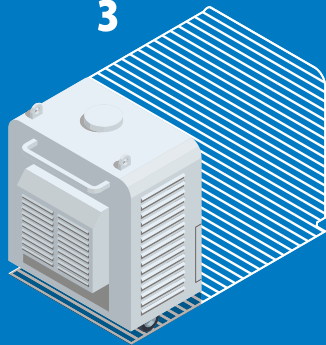

**POINT 01 Proven Battery Life of over 8.5 Years**

For RTG Hybrid systems, battery life is the key factor when considering Return On Investment. Our Sybrid System has a proven battery life of 8 – 10 years operation without battery replacement.

**SIZE**  $\frac{1}{3}$

**ENERGY reduction by 50%**

**POINT 02 Energy Saving of over 50%**

The Sybrid System is designed to reduce the gen-set size by 1/3 resulting in energy saving of over 50% compared to a conventional RTG.

**POINT 03 Experienced System Integrator**

We have successfully delivered over 200 units to other crane OEMs. Furthermore, we have successfully hybridized conventional RTGs from various major OEMs with various electrical drive systems.

**PRODUCTS RANGE**

**Ports**

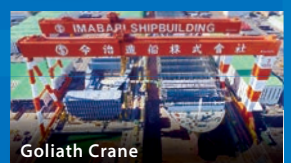

**Power Generation**

**Steel Mills**

**Shipbuilding**
