

SUMITOMO
PROVIDES
HIGH LIFTING
CAPACITY
WITH
LIGHTWEIGHT
DESIGN

POINT 01 Capable of doubling Lifting Capacity on the same rails and foundations.

Our light-weight design enables doubling of lifting capacity on existing rails and foundations to increase shipyard productivity.

POINT 02 Fully Electric with Inverter Control

Our crane design is fully electric powered, eliminating the use of hydraulics. Our design is compatible with all major inverter drives.

POINT 03 Can be designed to travel curved rails

Our crane can be designed to travel on straight rails as well as curved rails.

PRODUCTS RANGE

Ports
