

SUMITOMO IS THE LEADING PIONEER OF RTG AUTOMATION

POINT 01 Productive and Reliable System

Our automated RTG system has proven to be productive and reliable at one of the busiest container terminal in the world, and we have been delivering ARTGs for 20 years.

POINT 02 Clean Safety Track Record for 20 years

Since our first delivery in 2005, our ARTGs have operated safety without any issues.

POINT 03 Experienced System Integrator

We are an experienced system integrator and can collaborate with other crane OEMs and TOS suppliers. We have successfully completed deliveries of our RTG Automation system for new-builds from other crane OEMs as well as retrofitting existing RTGs from major OEMs.
