

Magic Rack

Magic Dolly

- Auto Shuttle transport

Magic Shuttle

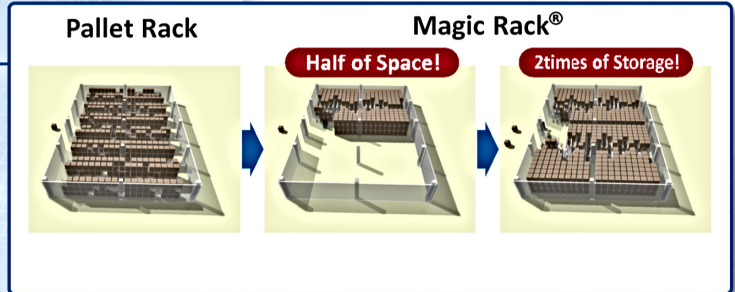

- Maximum load 1,000 kg
- Travels inside the rack
- Auto-Charging on Dolly

Solutions provided by MAGIC RACK®

SPACE RENOVATION

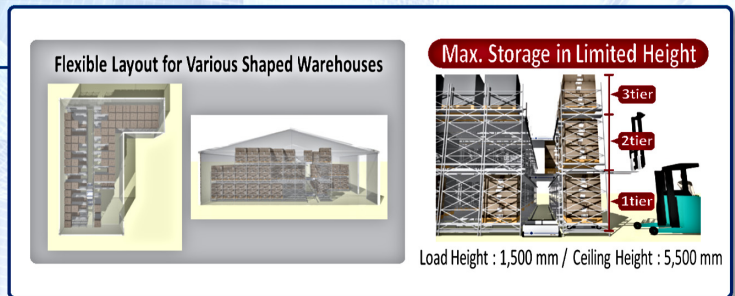

AMAZING STORAGE EFFICIENCY!

Because the forklift aisle is unnecessary, the area for storage will increase drastically!
 Compared to ordinary Pallet Rack, storage is 2 times more.
 The same amount can be stored in half of space.

FITS to EXISTING WAREHOUSE

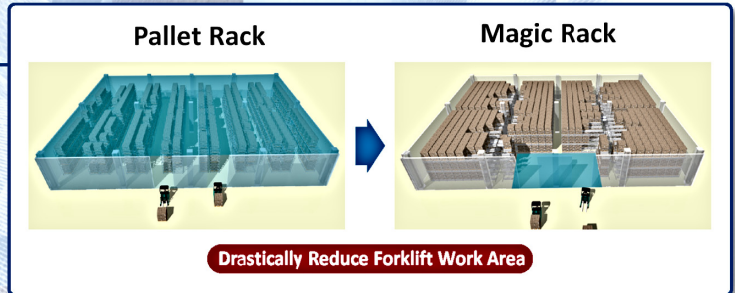

Various layout can be planned freely according to the shape of warehouse!
 Unusable space such as ceiling area can be turned into a storage space!

REFORM WORK STYLE

No running around ... REDUCE DRIVING!

Automation enables easy access to all location!
 Forklift operators will no longer need to search for empty storage space or any particular load.

By auto assorting ... REDUCE LEAD TIME!

Free hours such as night time can be used for scheduled shipping preparation, freeing workers from assorting operations!
 Leaving forklift workers to do only the loading.
